Games

New Games & Singleplayer Play
Hangman & Tic-Tac-Toe were developed alongside a **CPU** for NIM & Tic-Tac-Toe to play against.
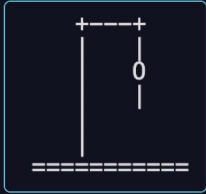

Gifts, Badges & Cosmetics
Badges alongside a user display achievements, administrator status, or roles. **Gift** a badge to your friends after participating in CoolStackGames!

Community Building
Communities for users to find like-minded people to chat with are fully developed with a **chat** room, **game** room, and **Q&A** forum!

AI Revision & Moderation
Google's powerful Gemini & Perspective APIs can help you **revise questions** and **moderate communities** and chats.

Tech Stack

Front & Back End: React, Cypress
Website Host: Render
AI: Google Gemini & Perspective
UI: Lucide, flaticon & Coolors.co

Future Work

+ Additional game resources, such as **tutorials, challenges, daily quests,** etc.
+ **Cross-posting** between communities
+ **mid-game voice/text chat**?
