

SHUFFLR

Group 310

CS4530 – Spring 2026

neu-cs4530/spring26-project-spring26-project-group-310

Prof. Bhutta, TA Anirudh Revalli

shufflr.group310.k0rg.org

Jonah Lefkoff, Arnav Mishra, Hayden Besette, Om Prajapati

The tech stack of Shufflr is built on the GameNite base, using:

- React
- MongoDB
- ExpressJS

It is deployed in a docker container on DigitalOcean

Communities

How Communities Work

Browse 5 | Joined 1 | Pending

President Partakers
For the cool people that love the game President!

Top Gamers
Only people who are in the top 1% are allowed.

Nim Enthusiasts
for people who love the game of nim

Strategy Gamers
all kinds of strategy games welcome here

Achievement Getters
For those who love hunting achievements.

Join communities of players!

Play many card games like Euchre, Switch, and Pinochle!

Your Stats

GAME BREAKDOWN

6W 4L 23s played

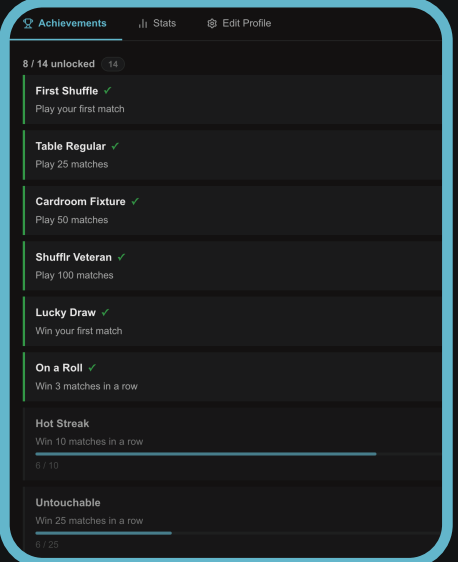

Track comprehensive win/loss and ELO stats!

Future improvements to Shufflr include:

- More card games including non-french deck games
- Additional achievements and leaderboards
- Better bots with multiple difficulties to play against

Earn cool achievements!

Shufflr is a comprehensive platform for card game enthusiasts. Incorporating community building, card playing, and stat tracking, it's your one-stop-shop for anything shuffled!
